Concrete earth inspection pit technical drawing

Drawing not to scale · dimensions by letter

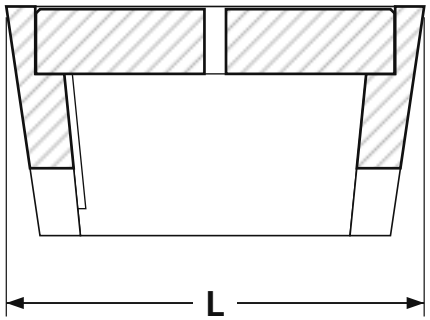

310 × 310 × 170

KALOT GROUP · TECHNICAL ILLUSTRATION · NOT TO SCALE

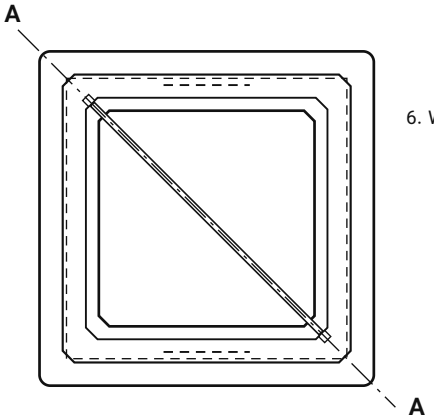

Overall height H (mm)	Width W (mm)	Length L (mm)	Model
170	310	310	Concrete pit

Section A-A across the diameter: cover on the top edge, grooves and earth bar

Section through the slotted walls: slot at the base of the wall

Top view without cover (dashed: bottom edge and slots)

Notes

1. Body and cover material: precast reinforced concrete; to IEC 62561-5
2. Bottomless body; the earth rod enters the pit from below
3. The cover sits on a ledge inside the top edge; slot for lifting
4. Slots at the base of two opposite walls for the conductors
5. Earth bar 300 × 50 × 5 (bevelled ends, short edge 280), 4 holes Ø12 (standard), supplied separately; bare copper, tinned copper or stainless steel; standing in the grooves across the diameter, longer edge up

   Earth bar bolts, nuts and washers: stainless steel, supplied separately
6. We keep improving our products and some dimensions may be updated; please confirm final dimensions with our specialists before ordering.

This document is not contractual; we may update product design, dimensions, weights and images without prior notice.
