Conductor layout on the earth pit bar

One conductor per hole · numbered from the right · views not to scale

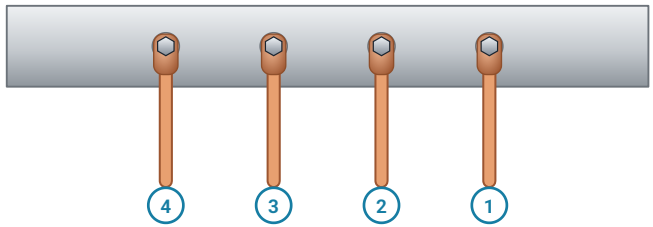

300 × 50 × 5 · 4 × Ø12 · PE 3030: 238 × 30 × 5 · 4 × Ø10

KALOT GROUP · TECHNICAL ILLUSTRATION · NOT TO SCALE

Concrete earth pit bar

4 holes Ø12 (standard)

PE 3030 polyethylene earth pit bar

4 holes Ø10 (standard)

Conductor on each hole

- Earth rod conductor (1)
- Lightning protection down conductor (2)
- Building conductor (3)
- Next-pit conductor (4)

Fix only one cable lug on each hole. Conductors in the soil and inside the pit are bare copper; only the riser, from ground level to the building, has a green and yellow sheath. The earth rod conductor (1) is on the end hole; to measure the earth rod resistance, undo this lug.
