Notes

1. Frame and pressure jaw material: steel; screw M10 × 45
2. The reinforcing bar sits in the V groove under the frame jaws and the conductor lies on the reinforcing bar
3. Tightening one screw makes the pressure jaw press the conductor onto the reinforcing bar
4. Parallel (II) and cross (+) joints with round conductor, copper conductor or tape
5. We keep improving our products, and some dimensions may be updated; please confirm final dimensions with our specialists before ordering.

This document is not contractual; we may update product design, dimensions, weights and images without prior notice.
