Foundation earthing schematic with galvanised tape

Foundation plan: closed ring, central branch, clamps and branches

GALVANIZED STEEL TAPE · GST 303 · 30 × 3 mm · 90 mm² · HOT-DIP 70 µm

KALOT GROUP · TECHNICAL ILLUSTRATION · NOT TO SCALE

1. Closed tape ring in the foundation concrete, near the outer edge, standing on its narrow edge
2. Galvanised tape-to-reinforcing bar clamp, at most 2 m apart
3. Three-way joint of the central branch to the ring with the multi-purpose clamp
4. Central branch; mesh size as designed
5. Branch to the main earthing terminal, inside the building
6. Branch for each down conductor, inside the column up to a stainless steel bonding point above ground level
7. Stainless steel bonding point on a column or wall

The schematic is illustrative and not to scale; the design sets the mesh size and number of branches.
We keep improving our products; please confirm final dimensions with our experts.

This document is not contractual; we may update product design, dimensions, weights and images without prior notice.
