Assembly with round conductor and tape (centre section)

Notes

1. Material of plates, bolts and nuts: galvanised steel
2. All three plates are the same size; only the top plate has a saddle
3. The saddle is straight across the full plate width; both conductors pass between the two bolts
4. The flat middle plate keeps the round conductor apart from the tape
5. Letters: L length, B width, e hole centre distance, s saddle width, h saddle height, t sheet thickness
6. We keep improving our products and some dimensions may be updated; please confirm final dimensions with our specialists before ordering.

This document is not contractual; we may update product design, dimensions, weights and images without prior notice.
