Polyethylene earth inspection pit technical drawing

Drawing not to scale · dimensions by letter

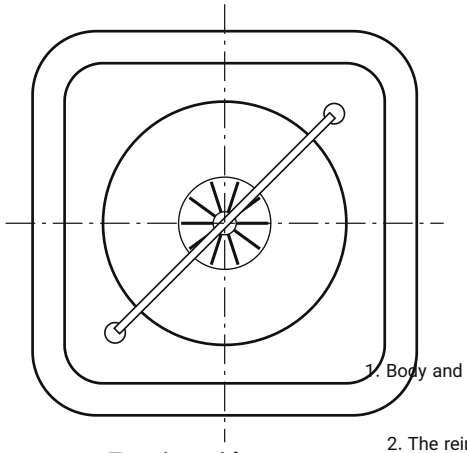

PE 3030 · 300 × 300 · 250 × 250 · Ø190 · H 205

KALOT GROUP · TECHNICAL ILLUSTRATION · NOT TO SCALE

Overall height H (mm)	Body diameter D (mm)	Top and cover B (mm)	Base flange A (mm)	Model
205	190	250 × 250	300 × 300	PE 3030

Section along the pit axis: cover, earth bar and base opening

Top view without cover

Notes

1. Body and cover material: black polyethylene from virgin resin, no recycled content, with UV-resistant additive
2. The reinforced cover is secured with two recessed stainless steel Allen screws; KALOT logo and earth symbol on the cover
3. Earth bar 238 × 30 × 5 (separate), standing diagonally in two slots in the inner rim; 304 stainless steel (standard); bare or tinned copper to order
4. Standard earth bar holes: 4 × Ø10 at 40 spacing; the number, diameter and spacing of the holes can be changed to order, to suit the project
5. The body base is slotted so the earth rod can pass through
6. We keep improving our products and some dimensions may be updated; please confirm final dimensions with our specialists before ordering.

This document is not contractual; we may update product design, dimensions, weights and images without prior notice.
