# Two-piece stainless steel conductor-to-wall clamp: exploded view

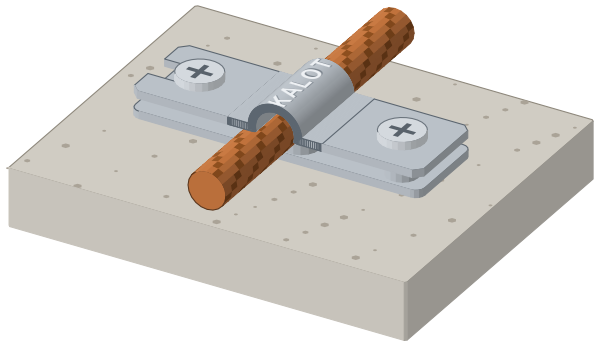

KALOT technical illustration · parts in order from the wall outwards

**SS · 50 / 70 mm²**

KALOT GROUP · TECHNICAL ILLUSTRATION · NOT TO SCALE

**Assembled view**

1. Concrete or brick wall
2. Wall plug to suit the wall material
3. Stainless steel base plate with two threaded inserts
4. Screw fixing the plate to the wall (central hole)
5. Stranded round conductor, 50 or 70 mm²
6. KALOT stainless steel cover with U slot
7. Two countersunk screws to fix the cover

Choose the wall screw and plug to suit the wall material (concrete, brick, block).
The conductor lies over the central screw, so the base plate is fixed to the wall first.
