Notes

1. Plate, sleeve and bar material: stainless steel
2. Threaded sleeve welded to the back of the plate; M10 × 1.25 thread from both sides
3. The bar screws into the sleeve; three holes on the plate edge for nailing to the formwork
4. After pouring, the plate face stays flush with the concrete
5. We keep improving our products, and some dimensions may be updated; please confirm final dimensions with our specialists before ordering.

This document is not contractual; we may update product design, dimensions, weights and images without prior notice.
