Two-way conductor-to-conductor clamp (test clamp): installation schematic

Joining the ends of two round copper conductors · not to scale

TC35 · TC57 · TC95

KALOT GROUP · TECHNICAL ILLUSTRATION · NOT TO SCALE

Key

Round copper cable: down conductor and earth conductor

Cross-section to suit the model: TC35 · TC57 · TC95

KALOT two-way conductor-to-conductor clamp

Ends of both conductors in the diagonal channel under the ridge

Two stainless steel bolts at opposite corners

Loosening them separates the joint for measurement

Application at a glance:

The clamp joins the ends of two round conductors; as a test point, the earth conductor can be separated from the down conductor by loosening the bolts.

Schematic figure; the exact meeting point of the two conductor ends inside the body is hidden and not drawn.
