# Exploded view of the U clamp for connecting vertical tape to earth rod and reinforcing bar

Not to scale

Exploded view (along the earth rod)

| No. | Part | Quantity | Material |
|---|---|---|---|
| 1 | U-bolt | 1 | Stainless steel |
| 2 | Earth rod or reinforcing bar (not part of the clamp) | — | Copper, copper-bonded or stainless steel |
| 3 | Top plate | 1 | Brass |
| 4 | 25 mm tape (not part of the clamp) | — | Copper |
| 5 | Bottom plate with tape groove | 1 | Brass |
| 6 | M10 nut | 2 | Stainless steel |

The U-bolt loops around the earth rod or reinforcing bar, and the earth rod sits on the top plate; the tape, vertical and in line with the earth rod, lies in the groove of the bottom plate, and two nuts press the bottom plate towards the top plate. The tape is not drilled.

Our products are continually improved and some dimensions may be updated; please confirm the final dimensions with our specialists before you buy.

This document is not contractual; we may update product design, dimensions, weights and images without prior notice.
